

The School Games Offer - HWSSP

Hertford and Ware School Sports Partnership, hosted by The Sele School receives £23,800 of national government funding to develop School Games across our 42 primary and secondary schools (infant schools are not included in the school Games format).

It is our responsibility as School Games Organisers to inform you what you actually receive for this funding:

- A calendar of School Games competitions across the academic year including 26 competitions across 12 sports available to primary schools and 10 sports available to secondary schools.
- 2 development festivals for years 3 and 4
- Support with sustaining Change4Life Clubs
- Support with application and verification of School Games Mark
- Additional support from your School Games Organiser for a minimum of 3 days per week to implement all additional tasks as set out in the SGO task list.

The funding received is utilised to meet the salary of the School Games Organiser and does not cover all of the essential delivery costs incurred. It is our ambition to provide these competitions in the most cost effective way possible combining the Partnership membership competitions and festivals as qualifiers for school games events, to the benefit of all schools. We will only ever pass on costs actually incurred if absolutely necessary.

We are continually striving to provide a relevant, suitable and vibrant PE, school sport, and physical activity offer for your young people. We therefore offer to all schools an extended package of support that can be purchased in addition to the Government funded offer. This has already been sent out to schools and is an excellent use of the Sports premium fund.

Please do contact me for further information if required.
